

BODY SPIN COURSE

with

Lara Farrow, Body Spin Teacher and Practitioner (Body Spin, Mod 1, 2 and 3, Vortex and Advanced Vortex)

BODY SPIN: THE ENTRY POINT INTO THE LIFE ALIGNMENT CURRICULUM.

In Body Spin we learn that our bodies are a profound organism designed to accommodate and express the essence of who we are.

It is intimately interconnected with this essence and to the larger whole via a series of gateways that, when open, allow the streaming in of energy from the cosmos (the macrocosm) into the body (the microcosm).

These gateways or vortex centers are what are commonly known as chakras. They are our connection with universal energy and through them we access deep levels of healing.

In Body Spin, we identify the imbalance, by priority, and invoke a specific pattern of energy through a specific vortex centre that is integrally related to the imbalance.

Body Spin works with the body's cellular memory or bio-computer, which guides the practitioner to the appropriate priority. It also works with the whole person taking into account all aspects of their being.

Body Spin, like Body Alignment Technique, addresses the root cause of an issue rather than attempting to treat the symptom. It also honors the agenda of the Higher Self and with permission and by priority addresses the issues
